2. **Approval of the January 2, 2019 Meeting Minutes.**
3. **Recommend approval of the appointment of Michael Pierce as a representative for a Social Service Provider for the Disabled as well as the Vice Chair for the SSTAC.**

The Social Services Transportation Advisory (SSTAC) is intended to be an advisory committee to the TCTC on matters pertaining to the transit needs of transit dependent and transit disadvantaged persons. The SSTAC's input is considered in and made an integral part of the TCTC's annual Unmet Transit Needs hearing and findings process. The composition of the SSTAC, the terms of SSTAC appointments and precise responsibilities of the SSTAC are found in and controlled by Section 99238 of the Public Utilities Code (PUC).

A description of the SSTAC and a current membership list has been included in the packet for your reference.

The following persons have submitted applications for appointment to the SSTAC in order to fill the following vacancies:

Michael Pierce - for the position of a Representative for a Social Service Provider for the Disabled as well as for the position of Vice Chair for the SSTAC.

Attachments:

A description of the functions and purpose of the Social Services Transportation Advisory Council and a current membership roster of the SSTAC.

Recommended Action:

Recommend approving the appointment of Michael Pierce to the Social Services Transportation Advisory Council.

Regular Agenda:

4. **Comment on the Draft Background Assessment Report for the Central Sierra Zero Emission Vehicle Readiness Plan.**

This Draft Background Assessment Report was on the January agenda and we want to give TAC.CAC members more time to review and comment on this Report.

The Tuolumne County Transportation Council (TCTC) received a \$200,000 Zero Emission Vehicle Readiness (ZEV) Plan Grant from the California Energy Commission (CEC) in 2017. This ZEV Grant will study and analyze site locations needed for ZEV infrastructure deployment and this grant is a four county inter-regional partnership with Alpine, Amador, and Calaveras's regional transportation planning agencies (RTPA's).

This first project deliverable for this Grant is a Draft Background Assessment Report of the baseline conditions to understand existing gaps in EV infrastructure, establish a baseline of

electric vehicles (EV), and project future charging station demand for the region. The Report also gathered a best practices for EV site identification and gap analysis to be used to develop to identify priority areas and shovel ready sites for EV infrastructure.

Introduction & ZEV Goals

- California goal is to have 1.5 million ZEV's on the road by 2025.
- California goal is to have 5 million ZEV's by 2030.
- TCTC's 2016 Regional Transportation Plan (RTP) – The Transportation System Management Goal is to develop a transportation system that maximizes the use of transportation facilities in the most efficient and cost effective way possible.
- One of the policy's from this goal is develop and support a regional electric vehicle implementation plan for Tuolumne County region. (We are doing this as part of our Central Sierra ZEV planning effort).
- 2016 RTP – Policy - Support the planning and construction of plug-in electric vehicles charging stations.
- TCTC's RTP's List of Rural Sustainable Strategies – **Zero Emission Vehicles** - Support and facilitate ZEV vehicles and infrastructure projects which will help improve air quality and reduce greenhouse gas emissions.”

Information on Electric Vehicle Charging Infrastructure

Recommended Action:

Review the Draft Background Assessment Report for the Central Sierra Zero Emission Vehicle Readiness Plan.

5. Presentation of the Tuolumne County Transportation Council 2018/19 Mid-Year Budget.

The Fiscal Year 2018/19 Final Budget for the Tuolumne County Transportation Council was adopted by the TCTC on October 10, 2018. This mid-year report is an important tool in forecasting how the budget is performing financially compared to the adopted budget.

The TCTC Budget is performing as originally projected with small variances, as identified in the attached TCTC Revenue and Expense Budget Mid-Year Review.

Revenue

No changes in revenue are expected.

Expense

The review projects some minor increases in expense may materialize based on actuals through mid-year as follows:

Increase of \$43,819 in A-87 Charges from the Auditor Controller. These charges were estimates given by the Auditor for FY17/18 Final budget. The charges are coming in higher than expected, but because other areas of the budget are not expected to materialize at full budgeted expense, we are confident that in whole the TCTC expense budget will not be over spent. Staff is seeking more information on the projected cost increase.

Overall, the operating expense shows a possible increase of \$44,134.

Conclusion

The FY18/19 TCTC Budget is performing as projected with some very minor line item variances.

The TCTC staff recommends making no changes to the FY18/19 Final Budget, due to the fact that besides minor line item variances, projections do not show any over spending of the total budget.

If a formal budget modification was necessary to add the revenue and expenses discussed above, it would require a 4/5ths vote from the TCTC. None is recommended.
